## Satellite Dish Installation Policy

The only approved method for Satellite Dish Installation at the Waterview Condominium is:

- Mounted on approved **non-penetrating** roof stand, placed on roof unit belonging to resident, and held in place by cinderblock, **not to exceed 50 lbs.** A photo of the approved roof mount apparatus is attached.

Satellite Dish or Mounting Apparatus will in no way be mounted to the structure, nor will any part of the installation penetrate the surface of the structure (other than the cable into the unit).

No cable should be visible from the Common Area.

***If this policy is not followed, the Satellite Dish and cables will be removed at the owner's expense. Any damage caused by installation of a Satellite Dish will be assessed to the owner.***
